

Bangladesh (Compared with other countries in WHO South-east Asia Region)

Indicator:

General Government expenditure on health as % of total general government expenditure, 2000

Definition: Public Health Expenditure (PHE) is the sum of outlays on health paid for by taxes, social security contributions and external resources (without double-counting the government transfers to social security and extra-budgetary funds). General Government Expenditure corresponds to the consolidated outlays of all levels of government; territorial authorities (Central/Federal Government, Provincial/Regional/State/District authorities, Municipal/ Local governments), social security institutions, and extra-budgetary funds, including capital outlays.

Country	Ordered by General Government expenditure on health as % of total general government expenditure, 2000
